Volume XLI OMAHA UNIVERSITY No. 6
OMAHA, NEBRASKA, FRIDAY, OCTOBER 27, 1961

Class Officers Elected Wed.

The results of Wednesday's all school election for class officers and freshman student council were announced late the same evening.

The results are as follows:

Senior class: president, Kendall Brink; vice-president, Kent McCallum; secretary, Ann Pence.

Junior class: Denny Graves, president; Ken Edwards, vice-president; Midge Butters, secretary.

Beth Nelson was elected student council representative for the junior class to fill the vacancy left by Linda Struble Sorenson.

Sophomore class: Lynn McCallum, president; Jim Pelowski, vice-president; Kathy Planteen, secretary.

Freshman Class: Ed Stanek, president; Ken McEwen, vice-president; Margie Scott, secretary.

Freshman Student Council: Sue Collins, Sharon Zagor, Chuck Saxton and Mike Moore.

Alums to Celebrate 50 Football Years

The alums are "coming home" for homecoming. The Alumni Association has planned a special celebration for the fiftieth anniversary of football.

On Oct. 27, the alums plan a banquet after the "Council Fire" honoring all 500 players and coaches since 1911. Herman Rohrig, former University of Nebraska backfield star, will be the guest speaker.

Other speakers include President Milo Bail; Donald L. Fitch, president of the Alumni Association; Harry Disbrow, a 1912 graduate; Oldham Paisley, 1915; Donald Pfisterer, 1941, and present coach Al Caniglia.

Joe Patrick, KMTV sports director, will be emcee. The past 50 years of football will be highlighted in a 15-minute film.

Guests will include the 1961 football squad, the OU Regents, coaches, a University Athletic Commission representative, 20 local sports directors and newsmen, some 20 area football coaches who will each bring five of their outstanding players.

The following will also be honored: Gordon Roberts who annually gives the J. Gordon Roberts trophy; the president of the Concord Club, a local service organization long a booster of OU's athletic program; the Buck's Club and former football players who have assisted the program in recent years.

The alums will present a gift to the 1961 Homecoming Princess during intermission at the dance Friday. After the Saturday game, a "pow-wow" party at the Ranch Bowl is planned.

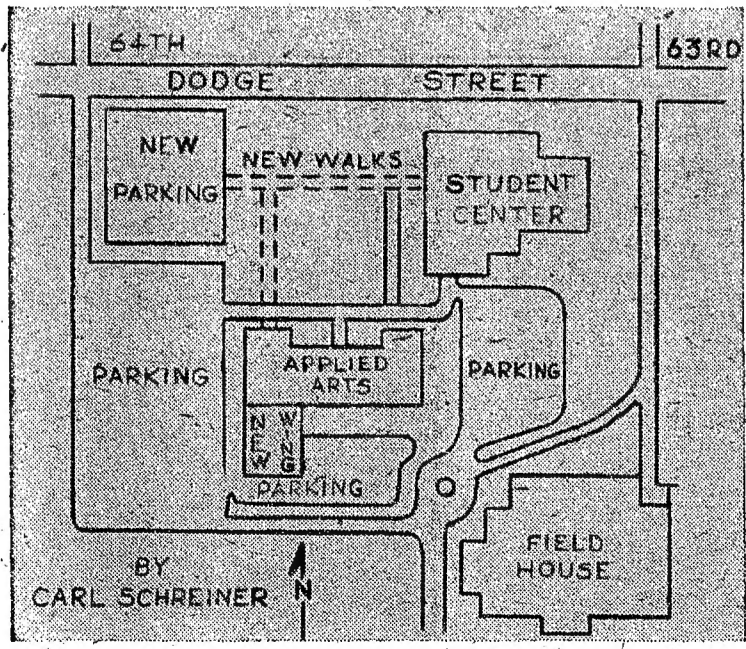

The Alumni Association will be official hosts and hostesses at an Open House at noon, Oct. 28.

Notice

The Speakeasies, meeting will be held Monday in Alcoves "C" and "D" at 11:30 and 12:30 in the Student Center cafeteria.

Tuesday during the Open Forum an 18-minute film, "Satisfaction Guaranteed" will be shown. It deals with the satisfaction derived from helping other people. The film will be shown at 11:30 and an informal meeting will follow.

Construction to Help Relieve University 'Growing Pains'

A glimpse into the future—how the Applied Arts Building should look in the summer of 1962, when it will sport a new wing. Dotted lines indicate new walkways. The soon-to-be completed parking lot is shown in the upper left-hand corner.

A two-story addition is scheduled for the Applied Arts Building at a cost of \$350,000.

The new section, (see map), will house ten medium sized classrooms with a 40 student capacity each, an engineering laboratory and five large lecture rooms for 80 to 100 students each. Office space for 15 instructors will be included in the new addition.

Dean of Administration Kirk Naylor said that increased enrollment dictates the expansion. He explained that the estimated enrollment by 1970 is 4,500. The way things are going, he said,

that figure will be reached by 1965.

The new facilities will allow space in other buildings for reading and language laboratories plus space for research, Naylor said.

"Omaha University has the money to pay for the expansion," he said "so it is only sensible to get the job done before facilities become inadequate."

Contracts for the addition are slated to be let in November.

Construction will begin this fall, and University officials hope the wing will be ready for the summer session of 1962.

Pep Rally, Parade, Dance Highlight OU Homecoming

PRINCESS HOPEFULS AWAIT TONIGHT'S COUNCIL FIRE

One of these coeds will be named Homecoming Princess at the council fire at 6 tonight on the campus Pep Bowl. The candidates are (left to right) Georgia Clark, Janet Gibson, Jean Hornish and Virginia Anderson.

Homecoming activities begin today with a pep rally at 12:30 in the Pep Bowl. Classes will be dismissed at 12:30 for the rest of the afternoon.

The parade through downtown Omaha leaves the campus at 1:30 p. m. The 150 decorated cars are to line up in Elmwood park at the ravine south of the ball diamond. A snake dance around the campus follows the parade.

At the Council Fire tonight at 6 in the Pep Bowl the Homecoming Princess will be announced. The program also includes a performance by the Ahamo Indians, a dance by the alum Ouampi Dick Bock and a skit by the University cheerleaders and Indians.

Candidates for princess include Jean Hornish, Georgia Clark, Jan Gibson and Virginia Anderson.

Miss Hornish represents Alpha Xi Delta of which she is treasurer. She is an English major and is serving as the editor of the "Grain of Sand." Miss Hornish is vice-president of Waukiya and is a member of Angels Flight.

Miss Clark holds the hopes of her sorority, Sigma Kappa. She lists such activities as cheerleading, secretary of Angels Flight, president of Womens Recreation Association and secretary-treasurer of Inter-Pep.

Miss Gibson, past president of Panhellenic Council, is Zeta Tau Alpha's candidate. She is a member of Kappa Delta Pi, education honorary, and Student Education Association. She received a trophy for Miss Congeniality in the 1960 Miss Omaha contest.

Chi Omega President Virginia Anderson is a member of Waukiya, Alpha Lambda Delta and Corinthian Society. She was on the Board of Student Publications and appeared in "Bells Are Ringing" and "The Boyfriend."

New York's Jimmy Palmer Band will play for the dance tonight which begins at 9 at Peony Park. Tickets will be \$1.50 for guests without activity tickets.

At 2 p. m. on Saturday the Indians meet the St. Benedict Ravens in the OU stadium. The Ouampi Room will be open after the game.

The halftime ceremonies include a musical formation by the marching band, presentation of the princess plus the awarding of honors to her and the court. President Milo Bail and Alum president Don Fitch will speak.

Since 1911 the Indian squads have won 132 games, lost 156 and tied 24 under nine coaches. The 1961 team enters the game against St. Benedict with a 3-1 record.

Parent's Day Replaces Dad's

Moms and Dads will be the honored guests of Omaha University at the OU-Washburn football game, November 4. Mothers and fathers of all students and of the football players in particular will be saluted at the Parents Day ceremonies.

Special Parent's Day tickets for the game are now on sale for \$1.50 each. These tickets will admit both Mom and Dad. They are being sold by all campus social organizations.

Ceremonies honoring parents will be held during the fifteen minute half-time. The band will play a tribute to the parents and President Milo Bail will welcome them.

In tribute, he will introduce the dads of football players, the mothers of players, and parents of all students, and asked them to stand and be recognized.

Then president Bail and a member of the Indians will draw a name from the attending parents, and will honor them as Representative Parents.

The parents selected will be escorted to the center of the field by an Angel and a Saber. They will receive gifts from the University, and special thanks for their support of OU.

At the close of the ceremonies, Dr. Stanley Trickett will invite all the students with their parents to a party in the Student Union Ballroom with the faculty. The Ouampi Room will be open for the rest of the students.

Parents Day in former years has been Dad's Day. This year to encourage more interest in University activities, it has been enlarged to give Mom a chance to get out to the campus once in a while.

To encourage ticket sales, an award will be given to the campus organization selling the most Parents Day tickets.

University Cinema Shows 'Chandra'

A million dollar production from India, "Chandra," will be the University Cinema presentation for Oct. 30.

Borrowing Hollywood techniques, this lavish musical adventure is complete with sword play, villains, heroes and horses.

It will be shown at 8 p. m. in the Conference Center Auditorium.

'Russia' Subject Of World Affairs

"The Soviet-Chinese Puzzle—a Fragile Alliance," will be discussed by Dr. Albert Parry in the fourth lecture in the University of Omaha's World Affairs Institute Nov. 1.

Dr. Parry will address the Institute at 8:15 p. m. in the University auditorium.

Dr. Parry, a professor of Russian civilization and language and chairman of the Department of Russian Studies at Colgate University, is a native of Russia and has traveled Western Europe and the Near East.

He is a visiting consultant and lecturer at the U.S. War College and also writes a column "Soviet Affairs" for the weekly Washington magazine "Missiles and Rockets." His latest book, "Russia's Rockets and Missiles," was published last year.

William T. Utley, professor and chairman of the OU political science department, believes this lecture will be of special interest due to Chou En Lai's premature return to China from the 22nd Congress of the Communist Party being held in Moscow.

Wednesday, Dr. Carl-Christoph Schweitzer spoke on the "Crisis and Challenge in Berlin and Germany." The final two speakers in the six-lecture series will be Peter Rittner on "Crisis and Challenge in Africa," and William Utley on "Crisis and Challenge—a Summation."

Taggart Recital Set for Nov. 5

The first in a series of Faculty Recitals will be given Nov. 5 by James Taggart. His concert will be held in the Student Center Lounge at 7:30 p. m.

Mr. Taggart, a piano instructor at OU, will play Hayden's Sonata in E Flat, four Debussy Preludes, Beethoven's Sonata, op. 109, and Prokofieff Toccata.

He received his Master of Fine Arts degree from Iowa University. He studied under John Simms, chairman of the IU piano department.

Mr. Taggart served three years with the Air Force in England. There he studied at the Royal Academy of Music in London and concertized in London and outlying districts.

Mr. Taggart was piano soloist with the Iowa University Orchestra. Currently he is a member of the Faculty Trio.

Trio to Conduct Three Workshops On Military Educ.

Dean Donald Woods of CAE, Assistant Dean O. W. Snarr and Ben Zeff, SAC education director, will leave next month to conduct military education workshops in Europe and Africa.

They will stop en route for an adult education and military conference in Washington, D. C., Nov. 5 and will leave for Madrid immediately following.

During the tour, three workshops will be held for schools associated with American military education installations. The workshops will be held at High Wycombe near London, Torrejon near Madrid and Nou Assour in Morocco, all major air bases.

Beyond —30—

By Ken Zimmerman

Seems as though the Greeks are at each others' throats again.

This time it's something about alleged illegal campaigning that ruffed the fur on a couple fraternities.

The way I understand it, the Sig Eps decided to be clever and present a massed show of black derbies and little emblems proclaiming "rah."

Big deal!

Just how this fits into the realm of "illegal tactics," I'm not sure, but the protests raised at Tuesday's Student Council meeting implied that everyone who voted would have been indelibly impressed to vote Sig Ep.

Why?

The derbies carried no candidate's picture, there was no written material; no nothing—just a simple uniformity among members.

Would it have been illegal for them to go around with placards stating "I'm a Sig Ep?"

Or was it illegal for them to wear their frat pins?

I don't think so (of course it wasn't up to me, anyway).

But more important was the fact that the Student Council acted not one way or the other but, in the same ambiguous way that so often marks the application of rules governing Greek activities at OU.

If the soft-sell applied by the Sig Eps was illegal, then it should have been branded as such and punitive action taken. If, on the other hand, it was all above board, then it should have been condoned.

Bowing to the howls of two wounded fraternities, the Council ordered the hats and emblems to go, decided that such tactics constituted an infraction of the election rules.

"Pre-meditated," no less.

But then when it came to slapping wrists, it was "to severe" to boot them out of the election. "It would only cause hard feelings," said some wise soul.

Too bad someone didn't mention such consequences last Ma-ie Day.

At any rate, the election has past (at this writing, the results hadn't been announced so I can't philosophize on the effects), justice and the democratic way prevailed and the Sib Eps can put on their hats again.

The incident will probably be forgotten until next spring when elections will again prompt all sorts of campaign activity. It will be remembered then because whenever spirited organizations join in such competition, there is bound to be an outcropping of cleverness and originality.

That's what can give such events a touch of excitement and true collegiate spirit.

But, alas, a precedent has been set and any such initiative will probably be snuffed before it ever leaves the frat meeting.

Petty jealousies have apparently cut another scar on OU's Greek activity and evidently no one cares.

Physics Contributions Is 'Legacy' Subject

The significant contributions of physics to our modern society will be discussed by Professor John McMillan, head of the physics department at the Nov. 2 "Legacy of Man" lecture.

The program, one of a series will be presented from 9:30 to 10 p.m. in the Conference Center Auditorium and will be broadcast by radio station KQAL-FM.

KQAL listening posts can be formed to discuss the Legacy series, such as one formed recently by four people in Fremont. For information, contact Michel Beils in the Conference Center.

What Would You Do During a Nuclear Attack?

Preparedness Difference of Life, Death

Radiological Defense Officer Says Organization Important

Leigh Wilson

You're sitting quietly in class absorbing a lecture. Suddenly short blasts from a shrill siren cut the air. It's a sound you've never heard.

What does it mean?

Suddenly you know: enemy missiles have been detected streaking toward Omaha. You have only a few minutes before a nuclear attack.

What would you do?

"I'd get the hell out," said one Omaha University student.

"I'd just sit and pray," said another.

"I'd hide somewhere . . . maybe in a hall," added a third.

An instructor said he'd tell his class to take cover immediately.

That instructor was right, according to Omaha-Douglas County Chief of Operations and Radiological Defense Officer James Hetrick.

Hetrick said your best—and probably only—chance is to take cover—quick.

He explained that the immediate danger is the primary blast and heat. A 20-megaton bomb (equal in power to 20-million tons of TNT) causes total destruction in a circle 12 miles in diameter, and reeks heavy damage in an area 35 miles across. In this area, a searing heat wave will be followed by a shock wave that destroys buildings, sending bricks, debris, and shattered glass hurtling through the air.

"If a blast is imminent," said Hetrick; "Hide. Protect yourself from burns, flying glass and debris, or collapsing buildings. And don't look at the blinding fireball," he emphasized.

If you survive the blast, then what?

"I'd hide in a bar," replied one fatalistic student. "Then I'd go happy."

"I'd start driving and never quit," said another.

"I'd wait for instructions from somebody," said a co-ed.

But the answer that best typified those interviewed was: "I don't know."

Hetrick said that if the bomb were a ground blast, fallout would begin in about a half an hour. If it were an air blast, such as the one over Hiroshima in World War II, there may be little danger from fallout.

In a ground blast, the radioactive material is sucked up in the mushroom cloud which may be 150 miles across and 150,000 feet high. It contaminates debris in the cloud, which begins to rain down, moving with wind currents.

Hetrick pointed out that there are two kinds of radiation: the alpha and beta particles which float in the air and contaminate externally but do not penetrate, and the more dangerous gamma particles which to a point penetrate every substance.

Even if you are safe from the alpha and beta particles—are breathing filtered air (often even a handkerchief will stop contaminated air), and are not drinking or eating exposed food—you're still in danger from gamma radiation.

The radiation destroys the body by stopping cell reproduction.

Radiation is measured in Roentgens per hour. Hetrick said the average Omaha air count is about .018 milli-Roentgens per hour. It takes about 250 Roentgens per hour to cause sickness; a 500 count will cause 100 per cent sickness and be 50 per cent lethal, and 750 per hour is nearly 100 per cent fatal.

Hetrick said that for minimum protection, there should

be at least 1½ inches of steel, four inches of concrete or eight inches of earth between you and the gamma radiation.

The radioactivity deteriorates rapidly. If the count were 1000 Roentgens per hour at peak fallout, in seven hours, it would be only 100, and in 49 hours, a count of 10. At this time, a person could be exposed for brief periods with no ill effects. In two weeks, danger from radiation would be practically nil.

Ultimately, Hetrick said, the safest place would be a well-built fallout shelter with filtered air, a radio tuned to 640 or 1240, a first aid kit, and plenty of food and water.

But while interest in shelters is high, actual construction is slow. There are probably not sufficient shelters to safely hold one per cent of the country's population.

Schools and office buildings are a civil defense problem because there are so many people in small areas without safe places to go.

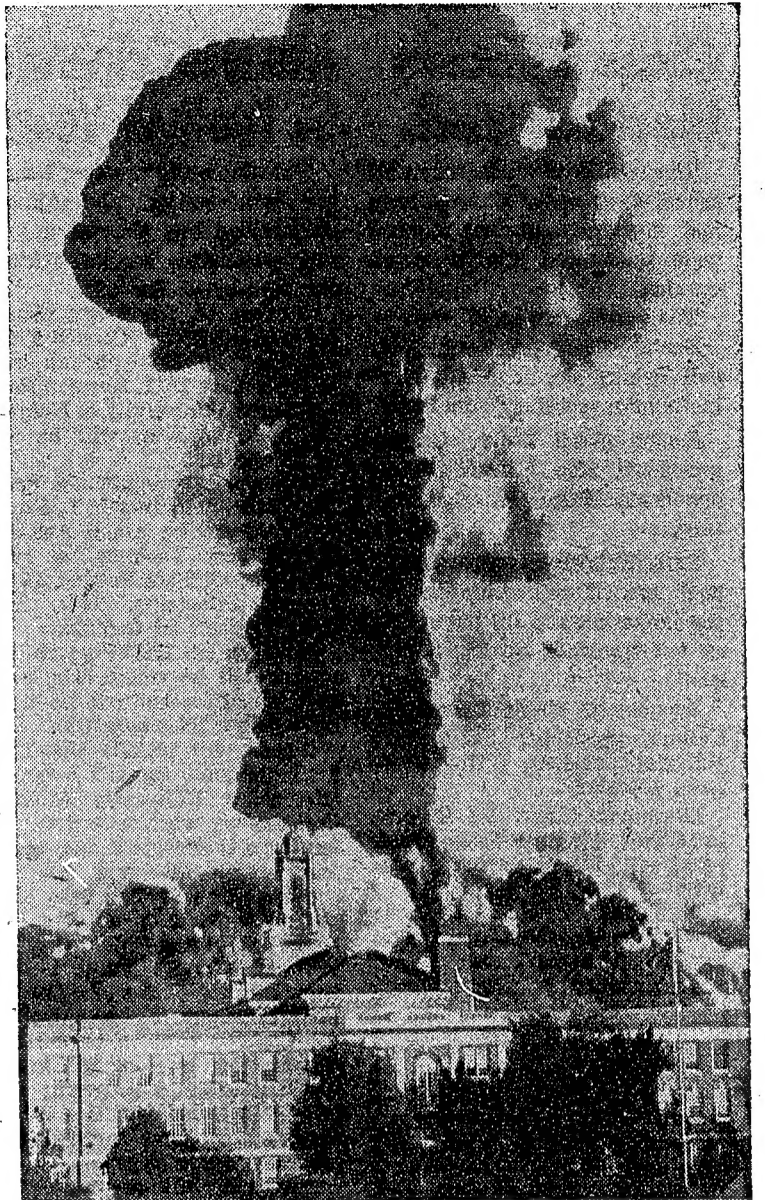

He said that at OU, an ideal solution would be large underground rooms that could serve as class or activity rooms or be used as safe shelters during attack.

Right now, only a few University basements—one in each of the buildings except the Student Center—could serve as a shelter. And they would need modification.

What then is the answer? "Organization and preparation," said Hetrick. "You've got to be ready and you've got to know what to do," he said.

If an attack ever came, he said, rapid evacuation would probably be impossible because of jammed highways.

"Trying to prepare a country that has never been attacked for a possible war is a big job," Hetrick said, and added, "let's hope that it never comes, but if it does, let's be ready."

BANG! This could happen in Omaha. What would you do?

Preparations in Full Swing For OU's 'Life with Father'

By Frances Campbell

The cast has been selected, technical work has begun, rehearsals are in full swing and the new auditorium is nearing completion—to mention only a few of the ways in which the Omaha University Theatre is preparing for its opening show, "Life with Father," to be presented on November 16, 17 and 18. Curtain time is 8 p. m.

"Life with Father," the Lindsay and Crouse dramatization of Clarence Day's books of reminiscence—opened on Broadway in 1939.

One of the best-loved plays of our time, "Life with Father" enjoyed the longest run in the history of the New York theatre, boasting a total of 3,324 performances.

The story of the Day family is one of constant conflict between the male and

female species—Father and Mother. This unavoidable conflict adds spice to the play and gives it an underlying comic tone.

The setting of "Life with Father" is a fashionable section of New York City in the late 1880's.

The set for the show is being built in the OU shop. The costumes are being ordered from New York.

Father will be portrayed by bootstrapper Al Metcalf. Appearing as Vinnie, the charming, vibrant mother, will be Ginny Dyas.

Clarence, 17, oldest of the four Day boys, will be played by Jim Pelowski. John, 15, the next in line, will be played by Don Houghton.

Portraying Whitney Day, 11, will be Charlie Gifford; the same age, son of Dr. and Mrs. Harry Gifford, 3636 Burt St. (Charlie played the lead in

OU's 1960 summer production of "My Heart's in the Highlands.")

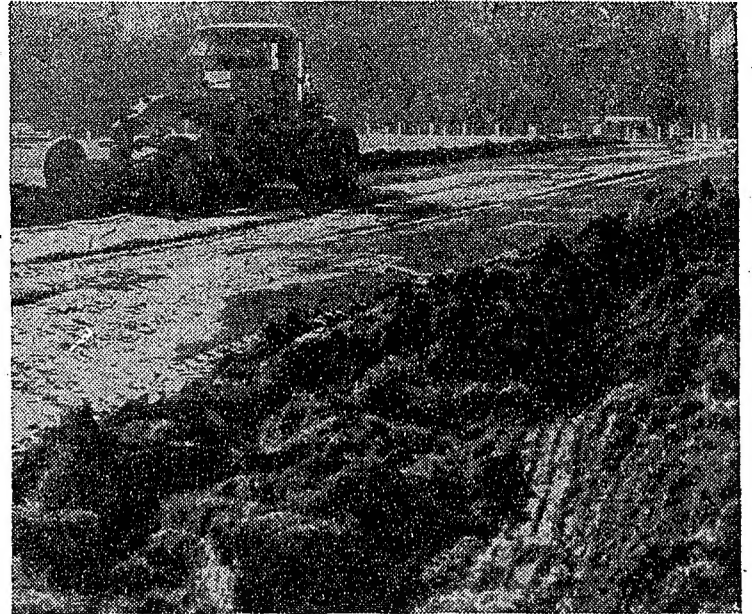

Eight-year-old Kyle Taylor, son of Mr. and Mrs. Wayne L. Taylor, 7212 No. 33rd St., will portray Harlan, six, youngest of the Day brothers.

Merle Reif will appear as Cousin Cora. Mary Skinner, Cora's 17-year-old traveling companion, who evokes much attention from Clarence, will be played by Karen Kleider.

Bootstrapper Norman Allan will portray the Reverend Dr. Lloyd whose main concern with the Day family is in getting Father to donate a goodly sum to the church. Dr. Humphreys and Dr. Somers will be played by Thomas Hicks and Richard Jordan respectively.

Neola Fontane will appear as Margaret, the Irish cook. The maids will include Jesse Gifford, (Continued on Page 7.)

Parking Lot Construction Will Ease Parking Congestion

This mechanical monster invaded the Omaha University practice football field Monday morning. This area will become an extension of Parking Lot "J" to help relieve crowded parking conditions on the campus.

Work began last Monday on the second of several projects at the University of Omaha to relieve some of the parking and traffic congestion on the campus.

The relief will come in the form of an addition to parking lot "J" which now occupies the ground behind the Applied Arts building. The new addition will occupy the space directly north of the existing lot.

Kirk Naylor, Dean of Administration, said that the new lot will be the crushed rock type and would accommodate about 150 cars.

The space the new lot will occupy was formerly used as a practice field by the Omaha U. football team and as a drill field by the Air Force ROTC.

He said, "the problem of finding space for parking at the University is one that will be very difficult to solve since we are limited more or less to our present campus area."

Dean Naylor is head of a committee which has been meeting regularly to try and solve the parking and traffic problems that have been grossly enlarged by having over 5,500 cars registered on the campus this semester.

He said, "any solutions to the problems will have to come in the most part from increased efficiency of the existing facilities. One of the solutions will probably be the switching of more classes to the afternoon. Some of this was done this semester, but undoubtedly more will come next semester."

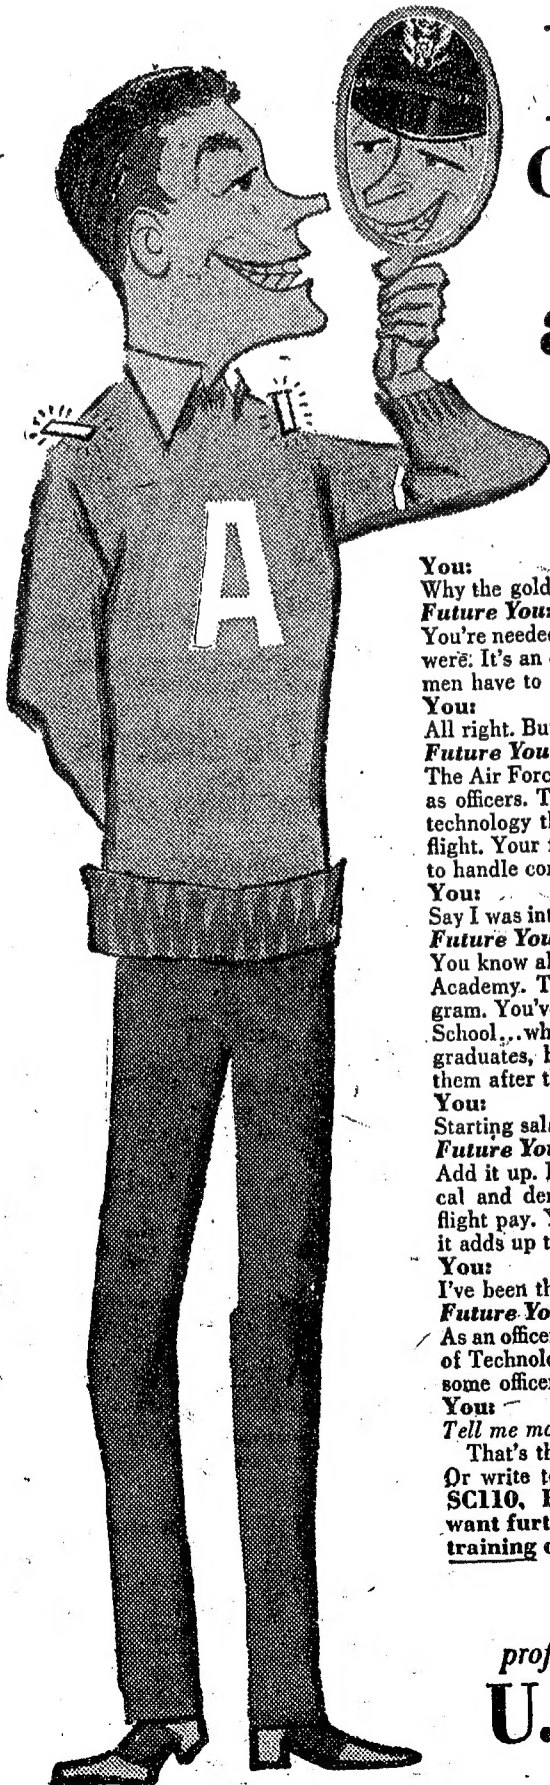

This would mean the scheduling of more classes between the hours of 1:30 and 4:30. In doing so, the University will be relieving some of the heavier morning traffic and switch it to the nearly empty lots at these hours.

Baroness to Tell Of Trapp Travels

Baroness Maria von Trapp, around whose life the Broadway hit "The Sound of Music" was written, will make two speaking engagements at OU.

The Baroness will discuss "Around the World With the Trapp Family Singers" at the fourth CAE University Nights program tonight at 8 p.m. in the Eppley Conference Center. The Baroness toured the world with her family singing group for twenty years, and staged more than 2,000 concerts during that time.

The Baroness will speak on "Today's Woman in a Changing World" for her second appearance at the all day "Today's Informed Woman Institute" Saturday, Oct. 28.

had a one-man conference about your future lately?

You: Why the gold bars?

Future You:

You're needed... just as your father and grandfather were. It's an obligation that a lot of qualified college men have to meet. If we don't...

You:

All right. But what can I do for the Air Force?

Future You:

The Air Force needs college trained men and women as officers. This is caused by the rapidly advancing technology that goes with hypersonic air and space flight. Your four years of college have equipped you to handle complex jobs.

You:

Say I was interested... how can I get to be an officer?

Future You:

You know about Air Force ROTC and the Air Force Academy. Then there's the navigator training program. You've probably heard about Officer Training School... where the Air Force takes certain college graduates, both men and women, and commissions them after three months of training.

You:

Starting salary is important. What about that?

Future You:

Add it up. Base pay, tax-free allowances, free medical and dental care, retirement provision, perhaps flight pay. You don't have to be an eco major to see it adds up to an attractive package.

You:

I've been thinking about getting my Master's.

Future You:

As an officer you can apply for the Air Force Institute of Technology. At no cost, and while on active duty some officers may even win their Ph.D. degrees.

You:

Tell me more.

That's the job of your local Air Force Recruiter. Or write to: Officer Career Information, Dept. SC110, Box 7608, Washington 4, D.C., if you want further information about the navigator training or Officer Training School programs.

There's a place for professional achievement in the
U.S. Air Force

A group of college students is being organized for a skiing trip to the Loveland and Arapahoe Basin ski areas. All transportation, lodging, ski equipment, tow tickets, insurance, and ski lessons if desired will be handled by National Ski Tours. Due to the large groups and the group rates which National Ski Tours receives, this trip will be inexpensive and enjoyable for the experienced as well as the novice skier.

Typical Freshman Named

Virginia (Ginny) Bohaty and Chuck Saxton were elected by the freshman class as their Typical Freshmen. Melanie Jeub and Ken Allen, last year's Typical Freshmen, presented the trophies at the afternoon mixer Wednesday.

Virginia Bohaty, Alpha Xi Delta, and Charles Saxon, Pi Kappa Alpha, were named Typical Freshmen Oct. 18. They were crowned at a dance in the student Center Ballroom by last year's royalty, Melanie Jeub, Zeta Tau Alpha, and Ken Allen, Pi Kappa Alpha.

Other candidates for Typical

Fresh were Kathy Bowman, Chi Omega; Felicia McGargill, Sigma Kappa; Marilyn Thur, Zeta Tau Alpha; and Virginia Colombo, ISA.

Male candidates included Gary Rogers, Tau Kappa Epsilon; John Stolley, Lambda Chi Alpha; Mike Moore, Sigma Phi Epsilon; and Tom Frasier, ISA.

Glen Haven Is OU Farm

Glen Haven, a 160-acre farm owned by the University of Omaha, has been set aside for research and agricultural purposes. The farm, located northwest of Irvington, consists of a grass timberland region, a lake area containing three lakes, and a homesite, protected by a wildbelt.

This land, given to Omaha University by the Allwine family, has been used by the Science Department for about six months. Most of the area is used for farming, the profits from which are used to further the scope of the farm. Areas have been set aside, however, for research and study in such fields as limnology, the study of fresh water; entomology, the study of insects; ornithology, the study of birds; and the study of grasses and trees.

Some of the OU students doing work at the farm include Roger Shape, hydrography, the study of lakes; Don Hess, hydrography; Ed Powers, embryology, the study of animals in the early stages of development; Susie Sipherd, embryology; Joanne Volenec, embryology; Marilyn Brace, plankton, the study of microscopic plants and animals found in bodies of water; Marilyn Spitler, plankton; Philip Turner, classification of plants; and Woodrow Clark.

Future plans for Glen Haven include a possible permanent laboratory to be used for summer research. Undergraduate and graduate students may soon be writing thesis on the farm. At the present time it is being used for class field trips and special projects in biology. Plans are being made to enlarge one of the lakes in the lakes area.

The farm is also being used by the National Science Foundation In-service Institute and high school science teachers for study and research.

The lost and found department is located in the Book Store. Students who find any articles should turn them in to the manager, and lost items may be called for at the same place.

Art Club Plans Mertz Building

A Bohemian theme will predominate the Art Club party to be held October 28 at the home of Judy Davis.

Two are scholarships and four material grants will be presented. Money for the grants and scholarships was raised in an art auction last year. The group will also build a mertz (sculpture by a group) which they hope to display at Omaha University.

All students interested in art are invited to attend.

Sponsors of the organization are John Blackwell, Jane Andersen, Peter Hill and Kenneth Nehmer.

New Bridge Club Plans Tournament

A branch of the American Contract Bridge Association has been established at Omaha University. The OU officers of the bridge club are: President, Jim Gammon; Vice President, John Cady; Secretary, Georgia Clark; Treasurer, Betty Siebert.

One of the first functions of the club, sponsored by Dr. Aldrich Paul, will be to hold a four phase tournament. The tournament, directed by Dave Smith, will consist of two duplicate tournaments and two rubber tournaments.

Membership in the club is open to anyone who wishes to join. The dues are \$1.00. The Omaha Contract Bridge Association has arranged for two instructors to teach new members how to play contract bridge.

Horn New Prexy Of French Club

Mary Jean Horn was elected president of the French Club Oct. 17. Other new officers include Edward Rigby, vice-president; Jean Mullen, secretary and Joyce Rosenberg, treasurer.

French Club meetings will be held the first Tuesday of every month. This year the Club plans to study French culture and its contributions to international society.

Lambda Chi Moms Plan Sat. Banquet

The Mothers Club of Lambda Chi Alpha are entertaining their sons and husbands at the Father-Son Banquet Oct. 28.

The event will feature Melvin Olson of the Omaha University music department as the main speaker.

Mrs. E. D. Frazier, Mothers Club chairman, and Dan Harris and Greg Minter, chairmen for Lambda Chi, are handling plans for the 6:30 dinner to be held at the First Christian Church.

OU Athletic Dept. Receives Banners

Omaha U's athletic department was the recipient of two canvas banners presented by Alpha Xi Delta sorority Oct. 19.

The banners will be used when the University's athletic teams are on the road. Each banner says "Fighting Indians" and "University of Omaha." An Ouampi figure adorns each banner.

Music Club Went Delta Omicron

Kappa Lambda Mu, women's honorary music club, became nationally affiliated last Sunday.

At ceremonies in the Student Center ballroom, the honorary became Omicron XI Chapter of Delta Omicron, international professional music fraternity. Mrs. Roxine Petzold, international president was the installing officer.

A musical and reception were held at five p. m. in the ballroom. Dr. James Peterson of the music department was installed as Chapter Patron. Mrs. Joan Bonner is Chapter Advisor. Faculty Advisor is Mrs. Beverly Hoff.

Officers are Sandra Staub, president; Nancy Lindell, vice-president; Gayle Haseh, secretary; Barbara Stribic, treasurer; Lynda Summers, directress of music; Mary Beth Moulten, publicity; and Donna Filipowski, historian.

Final examinations for this semester begin on January 19, 1962.

Noonan, Vincentini Newman Officers

Newman Club has two new officers. The Reverend Gerald Noonan was introduced as chaplain at the first meeting. Jerry Vincentini was elected treasurer.

Father Noonan was ordained last June and is now assigned to St. Margaret Mary's Catholic Church.

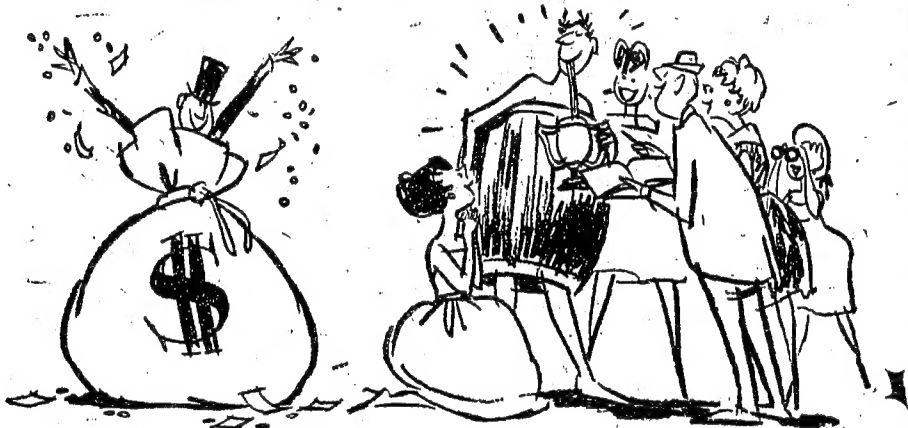

Newman Club strives to meet the intellectual, religious and social demands of its members. Informative movies and discussions on topics selected by the members are planned.

Father Noonan answers and explains questions concerning religion which are submitted. These activities are conducted during the regular Sunday meetings in room 315 of the Student Center at 5:00 p. m.

A Halloween Costume Party will be held at Brookhill Country Club, October 29, from 7:30 p. m. to midnight. Prizes will be awarded for outstanding costumes.

New Pledges Delta Sigma Takes Pledges

This year Junior Panhellenic Council members have been selected by each sorority. There are two regular members from each sorority, the pledge class president and another elected girl.

The purpose of the group is to evaluate the rush program and make recommendations for the coming year. They are usually in charge of decorations for the Greek Week banquet and last year they sponsored a summer tea for incoming freshman women.

The new delegates are Diane Shannon and Christi Jensen, Alpha Xi Delta; Jana Doxon and Nancy Ball, Chi Omega; Ruth Helligso and Felicia McGargill, Sigma Kappa, and Janice Thompson and Marilyn Thur, Zeta Tau Alpha.

All sales in the Book Store are on a strictly cash basis. No books or supplies may be charged.

Gamma Eta Chapter of Delta Sigma Pi, a social business fraternity at the University of Omaha, has taken a pledge class of 14.

The new pledges are as follows: John Blacketer, Dick Butler, Gary Crouch, John Francis, Keith Helms, Rogin Hill, Terry James, Bob Kunasek, Bob Lodes, Larry Moorhead, Butch Rogers, Dan Shaffer, Jim Spencer and John Wilson.

The group toured Continental Can Corporation following the formal pledging ceremony at the home of Al Ballering.

Watersports Club To Hold Meeting

The next meeting of the Watersports Club is Nov. 5 at 7 p.m., in the Jewish Community Center.

Membership in this club is open to any men and women on campus. It now has about twenty-five members.

Good Luck Big Red!

P.S. It's Still Coming—

Pat Weaver, National College Queen

What makes Artcarved Diamonds the favorite of America's College Queens?

Actually there are many reasons. Artcarved diamond rings must meet traditionally high standards for color, cut, clarity and carat weight. Their award-winning styles are a delight to the eye. And, they take all of the guesswork out of buying a diamond. Every Artcarved ring carries a written guarantee for quality and permanent value that's recognized and respected by fine jewelers from coast to coast. We think you'll agree with America's lovely College Queens.

Stop in at your jeweler and be sure to see all the exquisite Artcarved diamond rings—the rings you buy with confidence and wear with pride.

Little Emily Newton, 4, daughter of Mr. and Mrs. T. E. Newton, persuades Dean Taylor, Dean Donald Pflasterer, and Louie Miloni to buy a chrysanthemum for Homecoming. The campaign is sponsored by Waakiya.

Marine Captain Counsels Students

The Marines will land on the University of Omaha Campus Monday and Tuesday.

Captain Darrell U. Davidson, Marine Officer Selection representative, will be in Room 302 of the Student Center to counsel college men and women interested in a program which involves two six-week training periods between academic years, with no meetings the rest of the year to interfere with studies.

Those accepted for the Officers' Candidate Course will attend ten weeks' training after graduation, and then receive commissions.

College women in their junior and senior years are eligible for the Women Officers' Training Program, which leads to a commission in the Women Marines.

KDP to Hold Dinner Meeting

Kappa Delta Pi, a professional education honorary for senior women, is holding a dinner meeting Nov. 2.

The purpose of the meeting is for nominating new members. To be eligible a senior woman must be in the upper fourth of the class; she must belong to S. E. A. and one other club; and she must have the ideals of a good teacher. All the current members of the group may nominate the candidates.

The dinner will be held at the Omaha University cafeteria at 5:00 p. m.

Debaters Take Top Honors

Eight Omaha University debaters went to Lincoln, Nebraska last Friday to participate in the Nebraska Wesleyan University Collegiate Discussion and Extempore Speaking Conference—and walked away with top honors.

Of the 12 participating universities from Nebraska and surrounding states, OU received the highest number of superior ratings a total of 15.

William Stillmuck, sophomore, received special recognition for superior ratings in all three rounds. The debaters averaged two superior ratings each. Other debaters were John Cady, Mary Evans, Max Voigt, Chuck Schmid, Greg Minter, Phyllis Taylor and Larry Juul.

The topic was: "Should Labor Be Under the Jurisdiction of Anti-Trust Legislation?"

Professors Donald Orban and Warren Gore of the OU speech department, accompanied the group.

Dr. Orville Hitchcock, speech professor at State University of Iowa, lectured on "Uses of Discussion in Society."

German Club Names Officers for Year

The German Club has announced its officers for the coming year. They are Linda Johnson, president; Frank J. Bundy, vice-president; Sherrie Ulfers, secretary; Lawrence F. Malchow, treasurer; and Gordon Jorgansen, activity chairman.

Theta Chi Goes Off Pro Nov. 1

By Mary Beth Meyers

Theta Chi's big day is November 1. This is the day the fraternity goes off social probation.

The decision came after the Dean of Students office reviewed the fraternity's case. Dean Donald Pflasterer said that the fraternity has proven to their satisfaction that they are ready to come back to full activity standing at the University.

Dr. John Miller and Dr. George Harris met with the administration a month ago to initiate this action. The second step that helped to further the fraternity's cause was a letter written to the Dean of Students office by the group asking them to look into the matter.

Since the fraternity has been on probation they have revised their scholastic policy. This move helped in proving that the fraternity had "straightened out," said Larry Schmidt's a Theta Chi active, and that they were ready to function as an active group.

Greek cards were not issued to the group this semester due to a ruling of the Inter-Fraternity Council. The Greek cards were ordered by the Administration, however, with only four fraternity crests printed on them. The cards will be issued by the IFC now that the group is off probation.

Future plans include a picnic and football game for the top scholars at the Omaha Home for Boys. They were selected by the faculty of the boys' school. They will attend the Homecoming game Saturday in a group sporting badges reading Theta Chi Honor Scholars. Before the game a picnic is planned.

The OX Olympics will be held December 16 "if everything goes all right," reported Larry. A move might be passed by the IFC allowing the group rushing privileges before the regular January rush.

A Theta Chi Sweater Girl will definitely remain unnamed. The dance is absolutely "out of the question," Larry said.

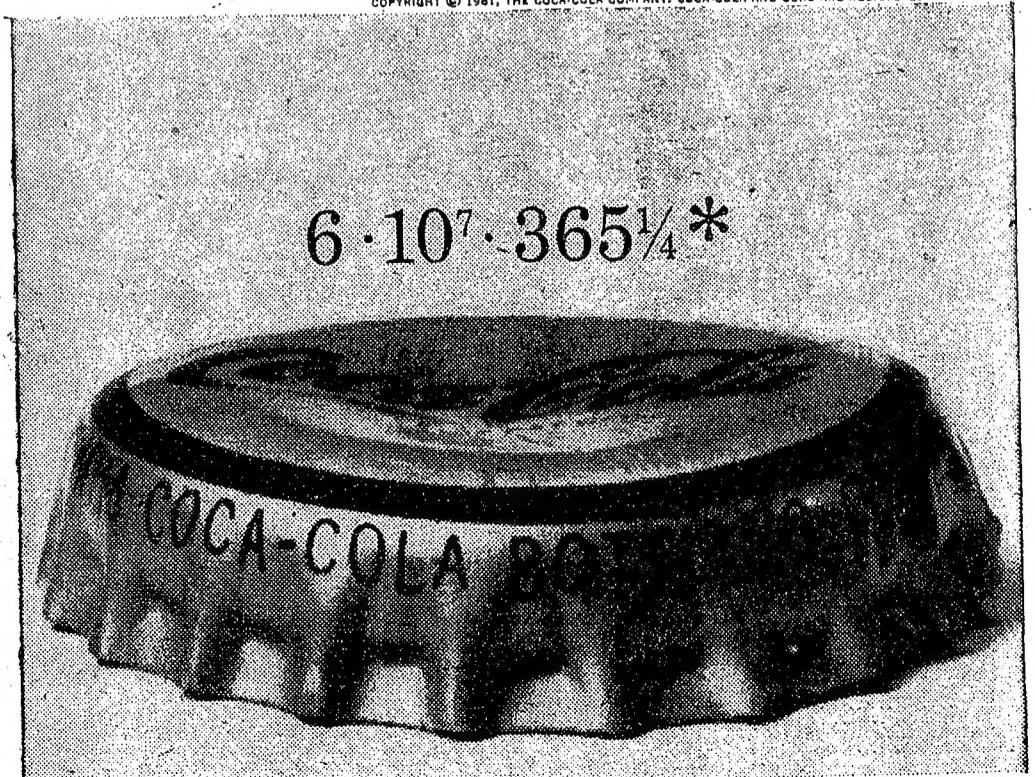

The chapter numbers about 20 active members and one repledge.

Angel's Flight Set Nov. 12 for Brunch

An Angel's Flight brunch and go-to-church Sunday are being planned for Nov. 12.

Members of Angels will attend either Protestant or Catholic services in the Offutt Air Force Base chapel and then have brunch at the Officers Club.

Fort Hays	0	2
Washburn	0	2

GAMES THIS WEEK

Home Team	Pittsburg
Washburn	Emporia State
Fort Hays	St. Benedict's
OMAHA	St. Benedict's

By Rich Less

Omaha University's best record since 1956, plus undefeated status in the Central Intercollegiate Conference, add up to the Indians finest homecoming in several years Saturday when they meet St. Benedict's.

The Indians last home game, Sept. 23, resulted in a victory over Colorado State. Two CIC victories since then have given OU a tie for first with Pittsburg. The Gorillas ran over Fort Hays Saturday, 41-7.

OU meets Pittsburg Nov. 11 at Pittsburg where, if things continue to go as they are, a showdown for conference honors will occur.

Omaha added Emporia to their list of defeated opponents Saturday night at Emporia 27-21.

Backes Hikes Grid Average In Indian Win

Omaha University's Wayne Backes stole some of the show from teammate Roger Sayers upping his rushing average to 6.5 yards per carry in last week's win over Emporia State.

The brilliant Sayers, though, still leads all Indian rushers with a 12.9 average.

Backes gained 113 yards in 14 carries against the Hornets and still hasn't lost a yard in his 30 carries this season.

Quarterback Carl Meyers boasts a .599 percentage in the passing department through the first five games, having completed 26 passes in 44 attempts.

Sayers has scored eight touchdowns good for 48 points. Meyers and Louie Miloni are second with 18 points each.

End Paul Blazeovich leads in two departments, punting and pass receiving. The Indian wingman has caught 12 aerals for 222 yards and is averaging 35.6 yards on 14 punts.

In team statistics, OU has compiled 1189 yards rushing compared with 626 for the opposition.

The Indians trail, however, in the passing department 511 to 560.

Over all, the gridders have a 589-yard-bulge in total offense.

Rushing—	Times	Gain	Ave.
Sayers	32	413	12.9

Wayne Backes paced OU ball carriers with 113 yards in 14 carries and one touchdown.

OU scored the first time they had the ball. The Indians took the opening kickoff and scored nine plays later as Backes scored from the two.

Emporia forced a tie but the Indians again took the lead in the second quarter on a 25 yard pass from Meyers to Roger Sayers. The conversion try was wide and OU led at half time 13-7.

After a scoreless third quarter both teams ran up 14 points in the fourth period.

OU struck first as Meyers plunged over from the one and successfully booted the extra point. Emporia followed suit and with little time left it looked like the final score would be 20-14.

But with 49 seconds to go in the game Miloni swept end for OU's final touchdown. Meyers again converted the extra point.

Emporia again counted as the gun sounded.

Statistics—	Omaha	Emporia

Lamb Chl's seven-foot effigy of St. Benedict's was stolen from the Student Center early Thursday morning.

The dummy was a reminder to students of the Homecoming football game Saturday between Omaha U and St. Benedicts.

Three Men Remain On Harrier Squad

Omaha University's cross country team, running with only three men lost to Nebraska Wesleyan and Doane College last Friday on the Wesleyan course.

Because they were lacking the two men needed to make up the five-man team, the harriers were penalized points that keep them from coming closer to winning.

Nebraska Wesleyan won the day's competition with 30 points, Doane placed second with 35 points, Dana was third with 74, and Omaha was last with 93.

The top two runners of the day were from Doane: Dean White, 15:44, and Tom Songster, 16:29. O.U. runners were Nick Dixon who placed 13th, Gene Somer 14th and Jim Foster placing 21st with times of 18:10 for Dixon and 18:32 for Somer.

November 1 Simson College, from Indianola, Iowa, and Dana College will be hosted by O.U. Simson should prove to be strong this year as should Dana, who placed two runners in front of Omaha's men last Friday.

Coach Ernie Gorr said the team has been improving greatly lately but simply cannot win without having a complete team and that the lack of interest by others that could be helping hurts the team a lot.

OU Women's Field Hockey Squad Wins

The Women's Field Hockey Team brought victory and the hopes of more competition for the newly formed team as they shut out the University of Nebraska at Lincoln last Friday afternoon.

Liz Weil sent the ball over the goal line late in the second half to give Omaha University its only score as they beat the Nebraska eleven by a score of 1-0.

Sharon Irwin, acting captain of the OU squad, said she had never seen such team work shown on the field. The team was limited to only a few short practices before the trip to Lincoln, but yet displayed an alert and coordinated defense.

Other players on the OU squad include Arlene Baker, Dorothy Bryan, Rose Allender, Martha Hollenbeck, Peggy Hurst, Mary Mooney, and Kathy Nanfite.

Linda Dooley and Joan Jorgensen, instructors in the Women's physical education department, also participated.

The Women's Field Hockey Team has invited the University of Nebraska Team to the OU campus for further competition.

Cage Mentor Borsheim Has Job of Rebuilding at OU

By ROGER BROWN

"One of the biggest problems in molding a basketball team at the University of Omaha is that of holding the players over the years to develop them," basketball coach Jim Borsheim said Tuesday.

Borsheim came to OU after serving as head basketball coach at Dakota Wesleyan where he compiled a five-year record of 7 wins and 33 losses.

He succeeded Sonny Means as basketball coach who resigned last year.

In reference to the coming season Borsheim said "he will be playing an undergraduate group of boys that will get better as the season progresses."

Borsheim believes that basketball is a game based on 60 per cent psychology and 40 per cent technique. "If a player isn't ready for a game mentally he might as well stay at home," he said.

Shortly after his birth 44 years ago in Virginia, Minn., his family moved to Cloquet, Minn., where he was raised.

Borsheim received his Bache-

lor of Arts degree from Westmar College in Iowa and his Master of Arts from Colorado State. He also served an 11-month stint with the 20th Air Force on Siapan Island in the South Pacific during World War II.

The OU mentor is married, has three children, and lives in Ralston.

Borsheim

Hair Is Problem

(Continued from Page 3.)

Betty Bechtel, Beverly Merica and Lee Burrill.

Assistant directors are Mike Landers and Mary Johnson.

"Hair color may present somewhat of a problem since all of the Day family are red-heads," Dr. Edwin Clark, director, commented.

Professor C. Harold Bush, new technical director at Omaha University, is not new to "Life with Father." This is his fourth time on the show. He has three times played the role of "Father"—once at Oklahoma in 1948, and twice at Kansas State College in 1960 during the summer and fall sessions. When asked whether he preferred acting or directing, Prof. Bush declared, "I love all aspects of the theatre."

"Life with Father" is a big first at Omaha University, since it is the first production to be staged in the newly-remodeled auditorium.

"The auditorium has been designed to give the audience maximum comfort," Dr. Clark remarked. "It is our hope that the students will take advantage of this facility," he added.

Some Wrestlers Working Already

Although wrestling practice officially begins Nov. 6, some members of the squad are already working out on their own.

Coach Al Caniglia has six returning lettermen to bolster his squad.

George Crenshaw, a varsity letterman, will handle practices until Coach Caniglia's football duties are over.

Five of the returning lettermen are still tied up with football duties. They are Wayne Backes, Art Ferguson, Jim Howard, Mel Masek and Louie Miloni.

The grapplers open the season at Graceland on Dec. 8. Their first home match is Dec. 15, against Iowa State Teachers College.

The schedule: Dec. 8, at Graceland; 15, State College of Iowa; Jan. 6, William Jewell; 13, Graceland; Feb. 10, at Northern Illinois; 17, xNorth Dakota State and South Dakota State at Brookings; 20, Northwest Missouri; 23, at Fort Hays; March 2, at Nebraska. xTriangular meet.

"All student cars must be registered in the office of the Dean of Student Personnel (Adm. 240) and carry a University of Omaha permit for each new academic year."—Student Handbook, 1960-61.

OU Grid Victims Not Doing Well

Charting Omaha University's nine grid opponents, the statistics show that the five teams the gridgers have faced so far have compiled seven wins and 23 losses. While the remaining schools, St. Benedict's, Washburn, Pittsburg and Drake, have won 13 and lost nine.

Colorado State College an OU victim 27-6 has not won a game, while Morningside and Colorado Mines have won three and two contests respectively. Fort Hays and Emporia have won one each.

Future opponent Pittsburg is undefeated in six games. The Gorillas have rolled up an impressive 200 points and have had only seven points scored on them in the six games.

St. Benedict's, the Indians foe this week, has won one and lost four. Washburn is even with three wins and three losses.

The last OU opponent, Drake, has won three and lost two.

BANG! the bomb

by Waldo

BANG! goes the big bomb. See the pretty, bright fireball? It is hot and burns college students. Run, college students, run. Run and hide. Hide in a fall-out shelter. Hide from the big BANG! and the nasty fall-out dust.

Do you see the dust? No, you can't see the dust, but it can see you. Run and hide under the ground. Hide for two weeks. Hungry? No, you can't come out. Hide from the dust or it will make you sick. It will make you very sick. It will also kill you. Isn't that nasty?

See the crowded fall-out shelter? See all the people fighting to get in? You fight to get in, too. Did you make it? That's too bad. Are you sick yet? Run, college student, run. Run and hide.

See the people glow in the dark? They are the funny radioactive Gateway staff who stayed to make the deadline.

Maybe the bomb won't go BANG! Then you won't have to run and hide. But if the bomb does go BANG! know what to do and where to run and hide. Then you can see the world after the big BANG! If you want to...

In Intramurals...

Epstein Posts 668 Series; Moe Joes Still Undefeated

Bowling

The Lams behind the 668 series of Brad Epstein moved into a two-point lead in intramural bowling Wednesday at the West Lanes.

Epstein posted games of 202-231-235 in erasing the previous high series of 636 set by Larry Dvorak the week before.

Lambda Chi (2) moved into second place. The Crew dropped from a tie for first place to third place.

Flag Football

Zeke Moe Joes continued their monopoly in intramural flag football as they remained undefeated

downs.

Keith Moeller, Lambda Chi, is a close second with 42 points. Frank Pecha, Zeke Moe Joes, is third with 38 points.

Football Receipts Up

Omaha University President Milo Bail said that receipts from the first two football games are running ahead of last year.

The university realized about 25 hundred dollars from last month's Morningside and Colorado State College contests. He added that seven thousand youngsters were admitted to those games.

Bonner to Talk Nov. 2

Dr. Thomas Bonner under the auspices of the Young Democrats is slated to speak on "The Responsibility of the Individual to Participate in Public Affairs."

The meetin gwill be held Nov. 2 at 12:45 p. m. in Room 301 of the Student Center.

'Club' Meets Oct. 29

"The Club," English honorary, will hold its second meeting of the year at the home of Ann Pence, 535 No. 68th St., Sunday, Oct. 29, at 7:30 p.m.

Literature, brought by members, will be discussed and analyzed.

M & M Club Has Outing

Omaha University's women physical education majors and minors held an overnight last Friday at Nixon's Island near Valley, Nebr.

The outing centered around a Halloween theme.

In other Women's P.E. news, Miss Joan Jorgenson said that the department has purchased four .22-caliber rifles and a trampoline.

Miss Jorgenson also suggests that all softball, badminton, golf, and tennis competition be completed while the weather is good. All schedules are posted on the bulletin board in the new quonset hut.

Official Notices

There will be a meeting at 3:30 p.m. today in the Student Organization Room of the Student Center for all those participating in the pre-game and halftime ceremonies tomorrow.

Science Lacks Sig Ep's Cleared Of Rule Violation

By Carole Seibert

"In teaching and in industry, the scientist has never received his full share of returns in dollars and cents," said Associate Professor John G. McMillan, Omaha University physics department head.

"Since Sputnik I, national attention has focused on science education," he continued. "The effects of the National Defense in Education Act and federal match-funds programs are noticeable right here in Omaha, especially in the high schools."

Professor McMillan gave as an example one school which had increased its facilities from practically nothing to a complete laboratory and a research library.

"Here at OU," he said, "marvelous use has been made of existing funds and facilities. The physics department has been greatly improved since it was moved into the Applied Arts Building, the chemistry department has its new laboratory, and there are new engineering facilities planned for the Applied Arts Wing."

As a participant in the Iowa Visiting Scientist Program, Professor McMillan recently spent a day at the Missouri Valley Community Schools conducting lecture-demonstrations for students and a conference for teachers.

The program, sponsored jointly by the University of Iowa Academy of science and the National Science Foundation, is designed to promote all aspects of science education, both on the high school and college levels.

Although Professor McMillan said his first area of responsibility is at OU, he commented that he was "pleased with the knowledge that people in outlying areas have about OU, and the respect shown," and that he found it helpful to "look over" raw material of future OU enrollment.

The emphasis on the need for scientists was brought out even more, by the recent Russian atmospheric nuclear detonation of 30 megatons or more. Professor McMillan said one of the newest problems facing scientists is the possibility that the U.S. may be forced to conduct atmospheric tests of retaliatory anti-missile missiles.

Bowling Bucks Bounces Badly

By Paul Beavers

A "Bucks for Bowling" fund-raising drive among Omaha University students was described this week as "a colossal failure."

That statement came from OU Controller Harold Keefover, who said the drive netted \$12.66.

A banner-headlined story in the March issue of the Gateway last spring said President Milo Bail had kicked-off the fund drive, which was aimed at speeding completion of the proposed Student Center bowling alleys.

Keefover said the University is "drawing close to the time when a decision should be made about whether or not to construct the bowling alleys."

The big question now, he said, is whether the alleys would produce enough revenue to defray their total cost and operation.

Tax money cannot be used to pay the cost of construction, he said.

"The longer we wait (to begin construction)," he said, "the more it is going to cost because of increasing prices."

The current estimate of installing the bowling alleys is "roughly \$100,000," he said.

The decision of whether the alleys should be built is currently in the office of President Bail, he added.

"Dr. Bail will send his recommendation to the Board of Regents," he said, "and they will make the decision about whether to proceed with the alley construction."

Sig Ep's Cleared Of Rule Violation

Sigma Phi Epsilon fraternity narrowly escaped disqualification from the all-school elections during the Student Council meeting Tuesday.

The Council received a complaint from other fraternities that the Sig Eps had violated part of election rule two which states that campaigning is to be done "by word of mouth only" and that violation of this rule will result in immediate disqualification.

Sig Eps were charged with wearing "derbies" and carrying canes or "rah" signs and passing them out to "coeds." In addition, an employee of the Student Center was wearing this apparel while on duty. The violation was said to be "premeditated."

Representatives of the fraternities sought a clarification from the Council on organizations dispensing material.

A fraternity member said that wearing the derby and carrying the signs were pulling something from a picture and wearing it around campus. "Campaigning should be merely a source of influencing the voter," he said.

One Council member said that "mauling everyone is just as much of a violation as wearing a derby would be."

"If the Sig Eps are kicked out of the election it would only cause more hard feelings between organizations and among student," said another.

Although representatives of the fraternities and the Council agreed that the Sig Eps

had violated the rule, most thought that the punishment would be too severe.

A Sig Ep said that the derbies were to represent the standard dress of the fraternity, even in the future, not only for this election.

Dean Donald Pflasterer said that the purpose of the rules was to cut down individual expense, establish control and induce the student body to vote.

"It is difficult to control dress; if the dress of the Sig Eps was such a violation, something should have been done about it this morning when the first derby was put on."

Dean Pflasterer reminded the Council that they should make their vote for the benefit of the student body and not for their respective organizations.

Thus the Council voted against the motion that the Sig Eps be disqualified for the violation of the "by word of mouth" rule.

The Council moved that "gimmicks" had to be disqualified from the election.

The Council approved a motion that the Sig Eps could not wear their "gimmicks" for Wednesday's election.

Speech Class Has Mock Leaders

A mock organization has been formed by members of the Speech for Organizational Leaders class.

The purpose of the club is to learn correct parliamentary procedures. It is sponsored by Dean Elizabeth Hill, instructor of the class.

\$500 Scholarship Given OU

Steve Shepard, of the Star Radio Stations, presents President Milo Bail with a \$500 "Contemporary Communications Scholarship."

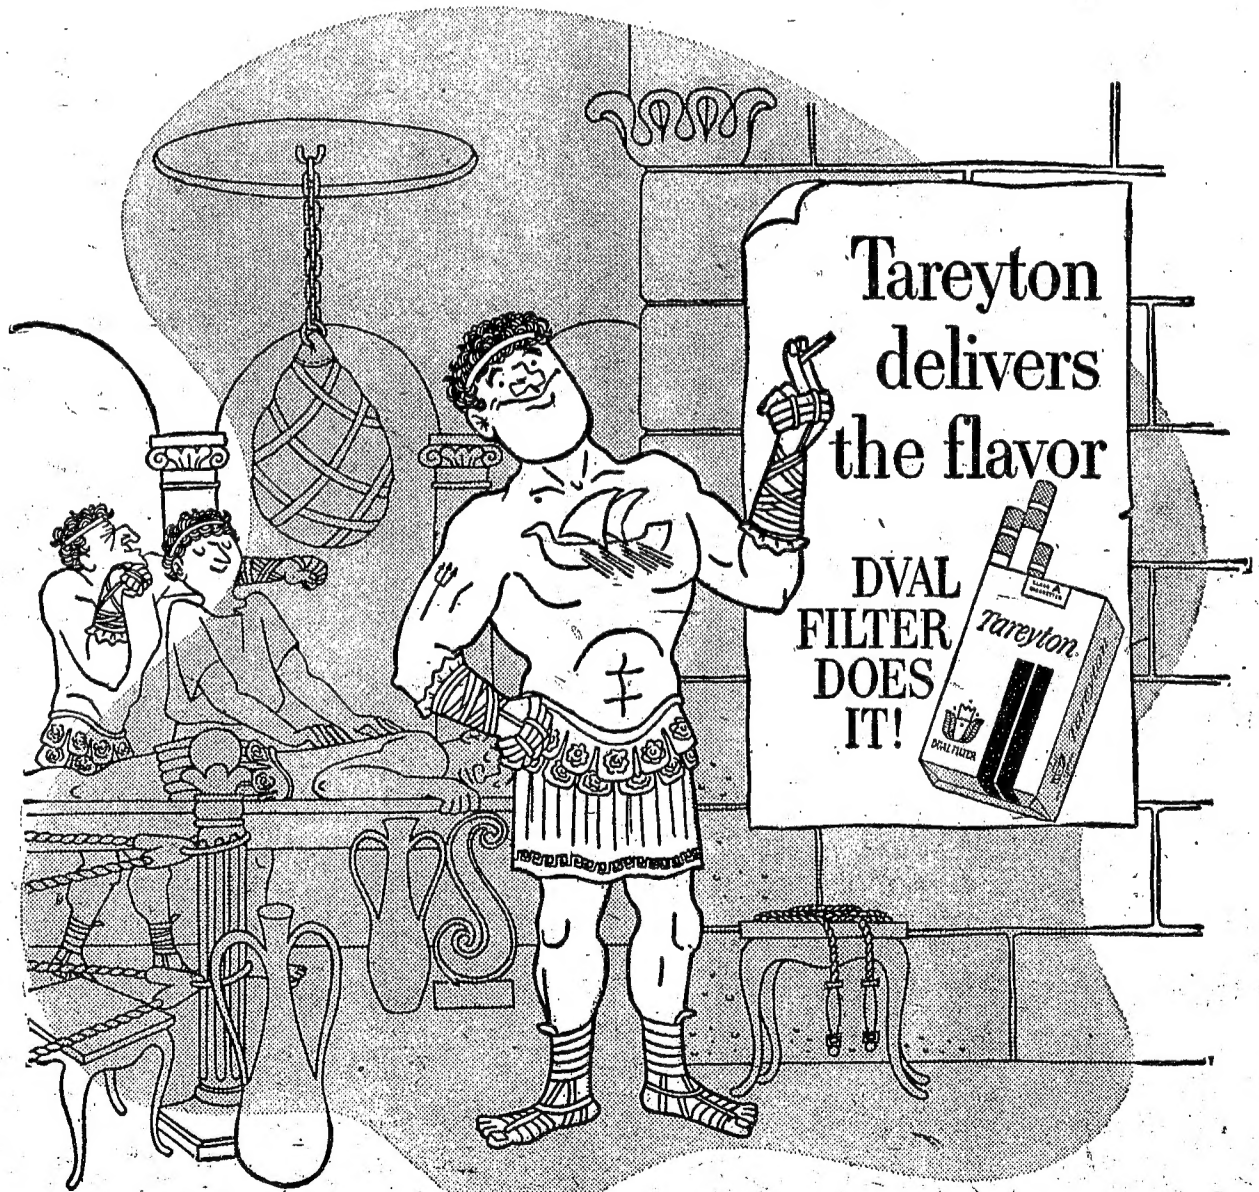

A new \$500 scholarship is now available to any senior majoring in radio-TV.

Steve Shepard, representing the Star Stations, KOIL, KOIL-FM, KISN, Portland, Ore. and KISN, Denver, Colo., presented the University of Omaha with the "Contemporary Communications Scholarship," Oct. 19.

The scholarship will be an annual grant beginning next semester.

Mr. Shepard said he hoped the scholarship will stimulate students to become more interested in the business aspects of radio and TV in addition to the performance side.

President Milo Bail, who accepted the scholarship, expressed his thanks to Mr. Shepard and to Mr. Burdin, the president of the Star Stations, for their "investment in youth." He added that this was the first scholarship of this type.

"Tareyton's Dual Filter in duas partes divisa est!"

Slugging Junius (Pretty Boy) Cassius takes off the brass knucks to enjoy his favorite smoke.

Says Pretty Boy, "Ecce Tareyton, one filter cigarette that really delivers de gustibus. Try Tareyttons. Next time you buy cigarettes, take a couple of packs vobiscum."

DUAL FILTER
Tareyton
